**EVENT BROCHURE**

A man wearing a dark fedora, glasses, and a dark long-sleeved shirt is seen from the side, painting a large, vibrant abstract mural on a wall. The mural features bold strokes of yellow, orange, and blue against a dark background. The scene is set at night, with a dark sky and a blurred cityscape in the background. The text is overlaid on the left side of the image.

**"The best kind of event has an engaged audience. Pendulum Summit in Dublin was an electrically engaged audience. I enjoyed my time both on and off the stage with all of the fantastic attendees that made up the entire summit experience. I was grateful to be a part of such an influential event. Professionalism aside... Pendulum rocks!"**

# **PENDULUM SUMMIT'S CORE VALUES**

## **Fuelling Peak Performance & Holistic Wellbeing**

**Mental Resilience**

**Compassionate Leadership**

**Purpose & Passion**

**Connectivity & Osmosis**

**Elite Performance**

- **Mental Resilience** – Whether it is Covid, political instability or war in Ukraine – there will always be something! Pendulum will offer proven techniques to create armour plated well-being to tackle work/life balance, burnout and loneliness. We want to create a physical health and well-being plan that keeps you energetic, engaged and passionate about the things that keep you performing at your best. Uncertainty is the new default and we need to make sure that everyone has the tools to navigate this successfully. Mental health challenges are now the norm among employees across all organisational levels. Seventy-six percent of respondents reported at least one symptom of a mental health condition in 2020, up from 59% in 2019.
- **Purpose & Passion** – Enjoy what you do and go all in. We must remember to show/feel gratitude and be grateful for what we have. Carpe diem – seize the moment and be in the now. “The two most important days in your life are the day you’re born and the day you find out why.” Mark Twain
- **Elite Performance** – Raising the bar, breaking through glass ceilings or peak performance – the sky is not the limit. We believe in a zero limit life, and that with the right information and key knowledge, everyone should be able to reach for the stars! We will bring world-record breakers and share wisdom from people who have achieved global mastery in their fields driving our delegates to smash new targets and create new habits which will deliver exponential rewards.
- **Connectivity and Osmosis** – Pendulum Summit is full of ambitious game-changers...by surrounding yourself and connecting with some of the most sensational business leaders and companies in the globe, flourishing will be inevitable. Our next generation networking technology enables connectivity between our in-person attendees and brands and our global live stream delegates.
- **Compassionate Leadership** – Invest, reward, retain and value your talent and you will see the law of reciprocation in action. When things are going well, double your training budget, when they are not going well, quadruple it – Peter Drucker “The only thing worse than training your employees and having them leave is not training them and having them stay.” – Henry Ford
